WPA CREW BEGINS GLEN ROCK PROJECT

Work of grading Glen Avenue from Maple Avenue to Harristown Road is now under way in Glen Rock by the WPA.

A crew of men appeared on the scene early this week and began the task.

Borough officials are glad to see the improvement get underway as it will open another section of the community for development.

Previously the WPA directed work of installing sewer and water mains and laying of sidewalks. Expiration of funds, however, necessitated the discontinuance of that part.

In the event funds do not expire on the present portion, the WPA will proceed with paving and curbing after the grading is completed. The borough must provide materials only. Estimated cost of the entire project is \$30,000.
